WILLOW RANCH

Welcome to The Willow — a sophisticated 2,700-square-foot luxury ranch plan designed for gracious single-level living.

The Living Spaces: Step past the covered front porch into an airy foyer flanked by a formal dining room and a flexible front study/bedroom. The heart of the home opens into a grand 15'10" x 23'5" family room with coffered ceilings, anchored by an open-concept gourmet kitchen featuring a center island and walk-in pantry. The adjacent dinette opens directly out to an optional covered rear porch and patio—ideal for outdoor entertaining.

The Bedrooms: Designed around a privacy-focused split-bedroom floor plan, the primary suite sits in its own dedicated wing. The sprawling 15'6" x 16'1" primary bedroom includes private porch access, a spa bath with dual vanities, soaking tub, separate shower, and an impressive 14'8" walk-in closet. On the opposite side of the home, a secondary bedroom and adjacent full bath provide private guest accommodations.

Exterior & Finishes: Showcasing outstanding curb appeal, The Willow offers custom elevation options with modern stacked stone accents, vertical board-and-batten siding, dark-trimmed window casings, and columned porch entryways.
