DRIFTWOOD

ELEVATION A

Available in three distinct elevations The Driftwood combines durable siding, masonry accents, architectural shingles, and high-efficiency windows designed to endure for a lifetime.

Welcome to The Driftwood — a charming, beautifully crafted 1,409-square-foot two-story home optimized for modern efficiency and low-maintenance luxury.

The Main Level (580 S.F.): Arrive home to a classic 20-foot covered front porch accented by timeless stone pillars. Inside, the front entry leads into an airy 15'6" x 14'1" great room that transitions seamlessly into the dining room and kitchen. The kitchen features efficient counter space, a raised breakfast ledge, and immediate access to both the rear patio for barbecues and the extra-deep two-car garage. A discreet main-floor half bath serves guests without intruding on the living space.

The Upper Level (829 S.F.): Upstairs, the layout places all three bedrooms together on one level while preserving privacy. The primary bedroom spans 15'6" x 11'11" and features an ensuite bath and private walk-in wardrobe. Two additional bedrooms each boast their own walk-in closets—a rare luxury for homes of this size. A central second-floor laundry room and full shared bath complete this thoughtfully designed second story.
